SEDUCTION AND ATTEMPTED SUICIDE In the month of September last, Mrs. Osborn, at that time living in Madison, Wis-Mr. Clark, through whose protestations of undying love, &c., she was induced to leave her husband, and with the gay Lotherlo went to St. Louis. In a few eks, however, Clark tired of his conquest, and deserted his paramour, leaving her penuiless and without friends. By some whereabouts and condition, and wrote her a letter stating that if she was in need he would be a friend to her, and though feelis g himself deeply, terribly wronged, he would never see her suffer. Mrs. Osborn seemed to be greatly affected by the receipt of this, but instead of availing herself an ahode in a house of ill fame. Another letter was received from her husband on Wednesday last, informing her that he was on his way to St. Louis, expecting to arrive next evening. The unfaithful wife then sent for and swallowed a large dose of laudanum, which, but for the timely aid of a physician, must have proved fatal. She declares her husband shall never are her alive, and a black girl has been em-ployed to keep a strict watch over her movements.

The New Haven Times says: 'President Pierce and wife have been sponding a day or two in Huttford, on their way to New York, from whence they sail for Bermuda in the early part of January. The good wishes of everybody accompanies them President Pierce has devoted his entire time to the care and health of his wife aince leaving the Presidential chair with an assidity and devotion as honorable to his heart as his public life has been patriotic and useful to his country.

It is stated that under the late decision of Postmaster General Holt, in relation to the distribution of "incendiary" documents through the Virginia Postoffices, the Postmaster at New Market, Middlesex County, New Jersey, has decided that in cendiary and abolition documents, and particularly Helper's Impending Crisis, shall not be delivered from his office.

The Charleston (S. C.) Mercury announces the formation of a committee of safety in that city, and says that its object will be to aid in the detection, arrest and proper disposal of all abolition sympathisers and emissaries.

There are some exceptions to this, however—some few who seem disposed to procrastinate till after-noon what might just as well be done in the morning. We wish all to understand, and nors especially yearly advertisers, that we shall feel under great obligations to them if they will bring in their advertisements before 12 M., which will allow us to devote the after part of the day to the reading department of our paper.

PREPARING FOR CHRISTMAS.-A light fin gered and nimble footed individual, unknown, ppropriated a turkey hanging to front of Job . Stauton's atore, Forry Wharf, about 4 1-2 clock yesterday afternoon, and "legged it." Considering the thing was done in broad daylight and in full view of the crowd of loafers who generally congregate in that locality, it was a pretty smart operation. As soon as the bill to prevent it merant pedding in that aforesaid loafers got sufficiently waked up to State, except in certain articles of home come to a realizing sense of things, they gave he usual cry in such cases of "Stop thief," and Job "nut her" after the man and his turkey.in which he was joined also by Marshal Scatta, but with what degree of success we have not

ROWDYISH CHECKED.—It has been a source of annorance to ladies and gentlemen waiting for the opening of the mails in the post office gated there and passed the time in "sky-larking, whistling, singing, &c., without regard to the wishes of those who were disturbed thereby. Our worthy Post Master, with that regard for the convenience of those having to do with the mails, has determined to put a stop to this, and has called into requisition the services of City Marshal Seatle for that purpose. Those young iada who disregard his requests for orderly and becoming behavior on their part in the post office lobby, under the impression that they have a right to do so, will, if they persist, most urely discover their mistake some fine morning before the Court of Justices.

Locals .- "Why in thunder don't you give us some Locals?" This question is put to us about seventeen times every day. Well, we re-echo the question—why in thunder don't you. It strikes us there are two ouds to this rope. Newport is proverbially dult in the winter season. Nothing ever happens here from September to June-no fires, no purders. no accidents, nothing to break the monotony of a Newport winter. In other places, less dull than this, people who relish an interesting local paper, strive to do their best to make it as, by writing communications discussing matters of general interest, and conveying to the editor information on points of interest that they happen to get hold of and he does not. But here, the case seems to be different. While most people profess a desire to see lecal matters discussed in the local paper, and growl if they do not, they never think of such a thing as aiding the editor, who feels just as much or more, the dearth of locals as themselves. We have loarned what every sensible man outlet to understand, that it does not pay for a man to devote his whole than to the collection of locals in Newport in the winter reason; and cal paper, strive to do their best to make it as. locals in Newport in the winter season; and | j23-3m

have therefore changed somewhat our arrange. The Great Indian Remedy ments for the winter months. Any matters of information of a local character will be thankfully received, and paid for if desired Meanwhile our readers may rest assured that all incidents of any moment that may transpire in this awful dull community of purs, will be duly noticed by us, and we hope that before another twelvementh shall have sixpaed we shall be able to chronicle the "rice and progress" of a railroad to Fall River.

Found the Traker, but Lost the Man .-Marshal Seatle found Job Stanton's turkes last evening, at a place where the thief had sold it for half a doller and missled. He was a stranger in town, and doubtless stele the gobbles to raise the wind.

THE CHRISTIAN LITURGY.

LEGARILY bound in embroidered in morocco, gilt edge, price 75 ets. For sale by C. E. HAMMET Jr., The Liturgy of the Church of America now offered to the Public, is drawn from various eligious writings, and breathes the spirit of the Bible.

The Forms of Aloration and Petition, and its smannary of Christian faith and Christian doctrine, are intelligible and plain. Its Cate chism is pure, and beautifully adopted to the emprehension of young minds-enlightening without confusing the —and preparing the way for holy th ughts and true religion. The work throughout is well arranged, and of an arcater to demand the close examination or neaccorproportions of faithful men projusting to unite and form themselves hat a visible Church of Christian decided in the Church of America, and its freedom from—what is too common in fiturgical and extemporaneous prayers—an attempt make the devoluins of the Church a means of indoctrinating the worshippers in a secturing arread, is sufficient to recommend it to attention.

But the Public are particularly called to

tarian creed, is sufficient to recommend it to att. atton.

But the Public are particularly colled to molice the holy object which it has in view. The purpose of the Church is to provide a Liturgy which shall comprehend those doctrines, and those only, which are essential to guide the mind in a right worship of God. It is obvious that near who differ as to the origin of sin, or as to the provise nature of the atonement, may nevertheless equally love God, and may be alike grateful to him furbin mercy, and desire his approval, and seek his will, and adore his infinite perfections. They may differ on many theological questions, and yet may have he same sentiments of derout trust, and recreatiful gratitude, and may equalty feel the need of divine help. If they may thus agree in what is essential to devation, why may they not make the logical speculations worship? If they will abatain from ethoding into the act of wership those theological speculations which have no necessary connection with it, why may they not now together before that God which they all adore?

The Liturgy of the Unuren or Americal

cessary connection with it, why may they not how together before that God which they all adare?

The Litury of the Chuzen or America does not professte teach a creed, but to give axpressions to those feelings which should be in man's heart when he looks up to God. It would leave the theological questions on which acets divide to be settled by each individual in its own way, while it would draw all Christian pauple together, in the sentiment and offices of devotion.

The Christian Litury, published in 1817, for the Christian and tanders of the country; much is added to the devotional part, and it apprendicts considerably to the Chapel Litury, published in 1786.

Heads of families, and teachers of religion proposing to minister the Gospel to the numerous societies of Christians among us, are solicited to examine this book with care, and to accept or reject it according to their individual judgments. And it is responsibility suggested to those who approve of its design, to read the several services therein put forth, on all occasions where their hearers are of different religious crueds, or of an argonistic opinions, as by so doing their publishers of the Church of America.
